- How do you think the government acts towards the private sector in this country? Do you think they don't do enough to help businesspeople, or they let businesspeople get away with too much? In what ways?
- Are there any government departments or agencies that you would identify as being especially competent and capable? Which are they?
- Are you familiar with any representative business membership organizations? For each: Do you perceive them as doing a good or bad job?
- What do you think about international donor agencies which have a presence in your country? Do you perceive them as doing a good job for the country, or as interfering? Are there any you have a particularly positive or negative feeling about?
- Thinking about efforts to promote public-private dialogue to improve conditions for doing business, if a well-known person were to appeal publicly for businesspeople and government to work together for the good of the country, who do you think that should be? Who would be listened to?
